F-root installation

07th September 2011. / presented by

Željko Drašković,
CTO
doMEn d.o.o.

Agenda

- I. Early start
- II. Usage stats
- III. Future steps

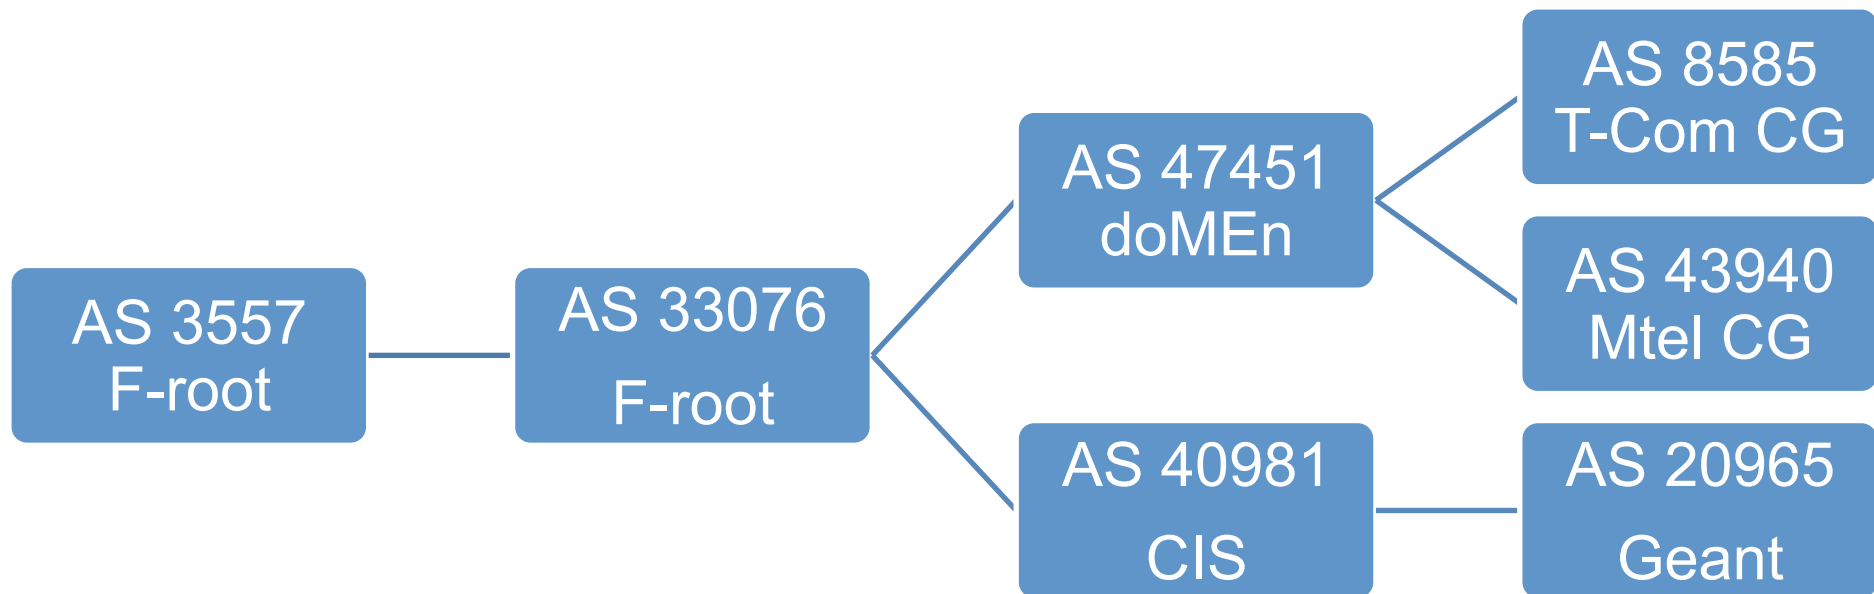

Express yourself.

Early start

- 2006: Montenegro becomes independent
- 2007: .ME assigned / RFP for registry
- 2008: Domain registration started
- 2009: F-root instance installed (by ISC)

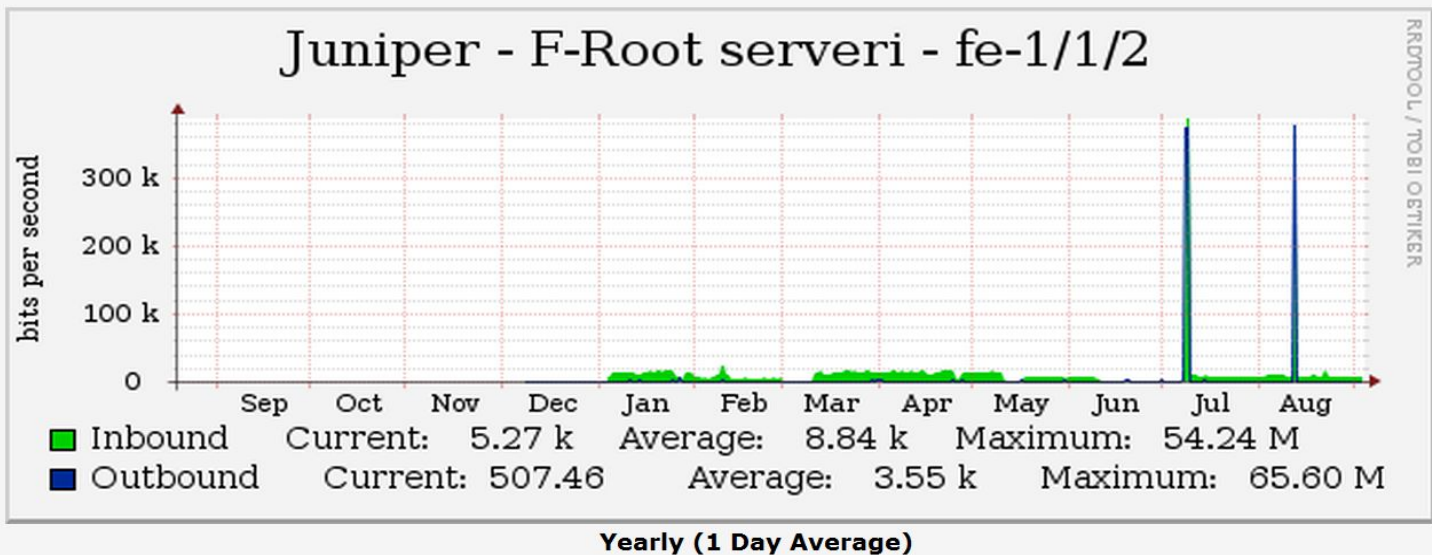

Connections

Usage stats

Viewing Graph Properties 'Juniper - F-Root serveri - fe-1/1/2'

Future steps

- Announce F-root instance to region
- Use it more efficiently
- Decrease connectivity costs
- Replace aging equipment with the latest one
- Readiness for connection to (closest) IXP
