

How to Protect Your Resources in the Registry

Where to start?

- Do you manage your own resources?
 - Is your company an LIR?
 - Are you or your colleague a registered contact?
 - Do you have an access to LIR portal?
- Are your resources managed by someone else?
 - Are you an End User?
 - Do you rent resources from someone else?
 - Is their resource management in order?

Why it is important?

 The integrity of the registry protects resource holders from misappropriation

Protect your registry data

RIPE NCC Access account

- Admin, regular, billing
- Make sure only authorised persons have access to the LIR account
- Keep it updated all the time: have your colleagues left the organisation?

Contact details

- Email, phone number, address

Billing details

- Receive the communication from the RIPE NCC on time
- Let us know if you can or can't pay
- Admin-c is it still valid?

Protect your registry data

- Timely inform the RIPE NCC about changes
 - Name and legal address change
 - Mergers or acquisitions
 - Transfers
- No RIPE NCC audit activities for Ukrainian members still important to keep an eye on the accuracy our your data

Protect registry data of your End-Users 🕎

- Before signing an agreement with an End User
 - KYC: Know your customer
 - Is the person signing real?
- Regularly check your End Users
 - Is the company still active?
 - Does a request make sense?

Apply your own due diligence to transfers

- Be proactive
 - Verify contacts of transferring party
 - Verify if transferring company is active
 - Verify if transferring party is a legitimate holder
 - Verify if resources are eligible for transfer (IPv4 Transfer Statistics)
- We are here to help and to provide guidance
- Contact us via <u>lir-help@ripe.net</u>

Transfer stats

Completed transfers published on our website:
