

Action Point Roundup

Database WG

RIPE 53

RIPE50

50.1	WW144	Take proposal to make the country attribute optional and multiple for inetnum and inet6num objects to the mailing list
------	-------	--

RIPE51

51.2	RIPE NCC	Check gnupgp compatibility before release of dated PGP signing functionality
51.5	All	Check and see if there are any other missing IRIS attributes that are needed for the RIPE community. This should be on the whole community who should now be checking the IRIS server.
51.8	RIPE NCC	To properly implement DB behaviour to always return irt: object on address queries, if it exists.
51.9	RIPE NCC	To contact a subset of the spam tool writers and make sure that they are aware of the change in behaviour as required by AP51.8

RIPE52

52.1	WW144	Put out a call for a task force to help the RIPE NCC in the task of updating the RIPE DB to comply with relevant Data Protection legislation.
52.2	RIPE NCC	To send their proposal to support enum delegations, using the nserver: attribute, to the WG-DB and DNS-DB mailing lists.
52.3	WW144, NT13	To reformulate irt: proposal and post to DB-WG mailing list
52.4	RIPE NCC	To produce statistics showing how many objects are only protected by CRYPT-PW.
52.5	RIPE NCC, WW144, Peter Koch	To produce a proposal, with timescales, for removing CRYPT-PW and circulate to the mailing list.
