- 74 countries

Registration by Country

- Top five countries

- DE: 240
- RU: 154
- NL: 133
- FR: 119
- UK: 104

Voting on Resolutions

- There is one Resolution to be voted on with three options
- Instant run-off voting is used for this Resolution
- Ranking options:
 - You must fill at least one preference for a ballot to be considered valid (or choose to abstain)
 - You must number the options of the Resolution in order of preference with 1 being your top preference
 - You can choose to fill as many preferences as there are options

Important: Abstentions are noted, but do not count!

Instant Run-off Voting (IRV)

- Instant Run-off Voting is a preferential voting system where resolutions must receive more than 50% of top preference votes to win
- If no option receives more than 50% in a round of voting, the option with the fewest top preference votes is eliminated
- The system then recalculates after redistributing votes according to the order of preference
- This process of elimination and recalculation continues until an option receives more than 50% of top preference votes

How IRV Applies Here

- There are three options in the resolution: A, B and C
- When the votes are counted, if none of these options has more than 50% of first preference votes, then:
- One of the options is eliminated
- The second preferences for the eliminated option are redistributed to the other two options
- The option with the most votes at this stage is the one approved by the GM

How to Vote

- Voting can take place once the Chairman declares voting open
- There are no paper ballots at this GM
- Electronic voting is available to all members who have registered to vote
- Electronic votes can be cast until 09:00 (UTC+1) on Friday, 26 November 2021
- We use a third-party system - BigPulse - for voting

How to Vote

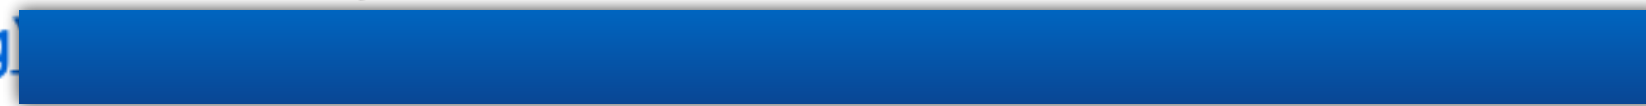

Dear Karla Liddle-White,

We invite you to vote on the RIPE NCC General Meeting's resolution on the redistribution of the RIPE NCC 2021 financial surplus.
