RIPE NCC Budget 2012

RIPE NCC

Document ID: ripe-544 Date: December 2011 Obsoletes: ripe-507

The RIPE NCC income from service fees is expected to increase as a result of the increase in membership in 2011 and the expected continued increase in membership in 2012. As a result of the rejection of the Charging Scheme 2012, the income presented in the budget is based on the Charging Scheme 2011, which will continue to apply.

In the near future, the RIPE NCC will deplete its free IPv4 address pool. This will have a substantial effect on the RIPE NCC budget and its cost development over the coming period. Generally speaking, the RIPE NCC budget will increase because of the IPv4 depletion. This is a result of the increased work on ensuring accuracy of registration, including additional audits, thorough review of IPv4 requests and the impact of the "Run Out Fairly" policy.

The budgeted costs for 2012 are 7% higher than the budgeted costs for 2011. This is caused by increased outreach and training activities to support IPv6 adoption, increased costs to cater for IPv4 depletion and the enhancement of Information Services and Measurement activities. For the particulars, please see: "RIPE NCC Activity Plan 2012".

RIPE NCC Budgeted Statement of Income & Expenditure 2012

Development of the RIPE NCC Reserves

The table below summarises the RIPE NCC's capital development. The capital consists of the RIPE NCC reserves, including the surplus/deficit for the year at issue.

Year	Surplus/	Capital at 31	Total Expenses	% Capital of
	Deficit	December	Per Year	Expenses
2007	1,070	13,764*	11,674	118%
2008	2,623	16,387	11,765**	139%
2009	821	17,409	14,683	119%
2010	714	18,123	16,561	109%
Estimated 2011	1,023	19,146	17,892	107%
Budget 2012	(32)	19,114	19,583	99%

Note: *The capital in 2007 includes the member rebate of EUR 2.5 million.
**The expenses 2008 include a payback from the Personnel Fund of EUR 1.5

million
