AFRINIC
The Internet Numbers Registry for Africa

RIPE NCC

RIPE NETWORK COORDINATION CENTRE

- Distribute IP addresses and AS numbers

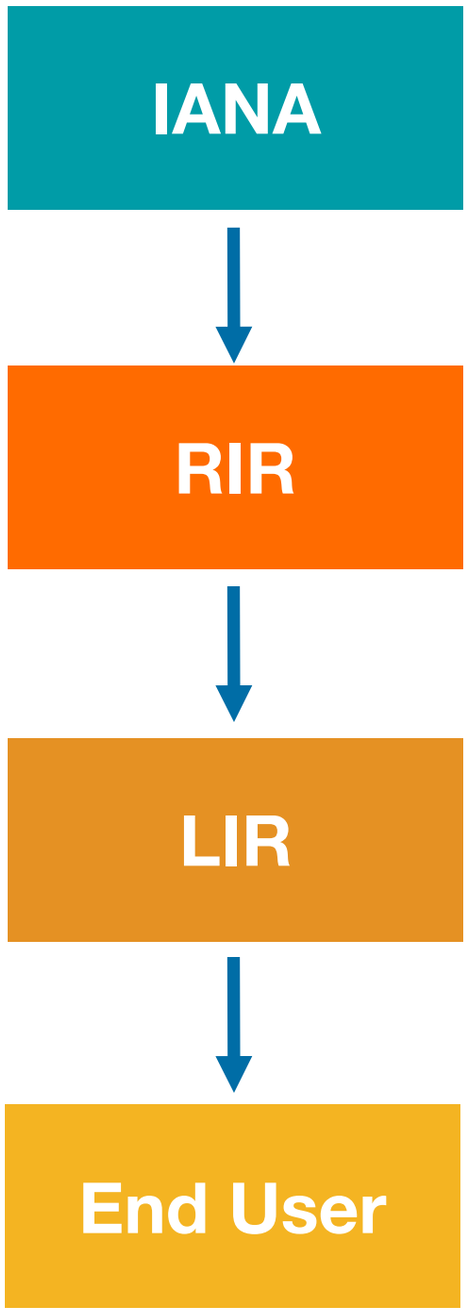
- Non-for-profit organisation

- Our members are *Local Internet Registries* **(LIR)**

So…
how much IPv4 is left?

NONE!

What happened to IPv4?

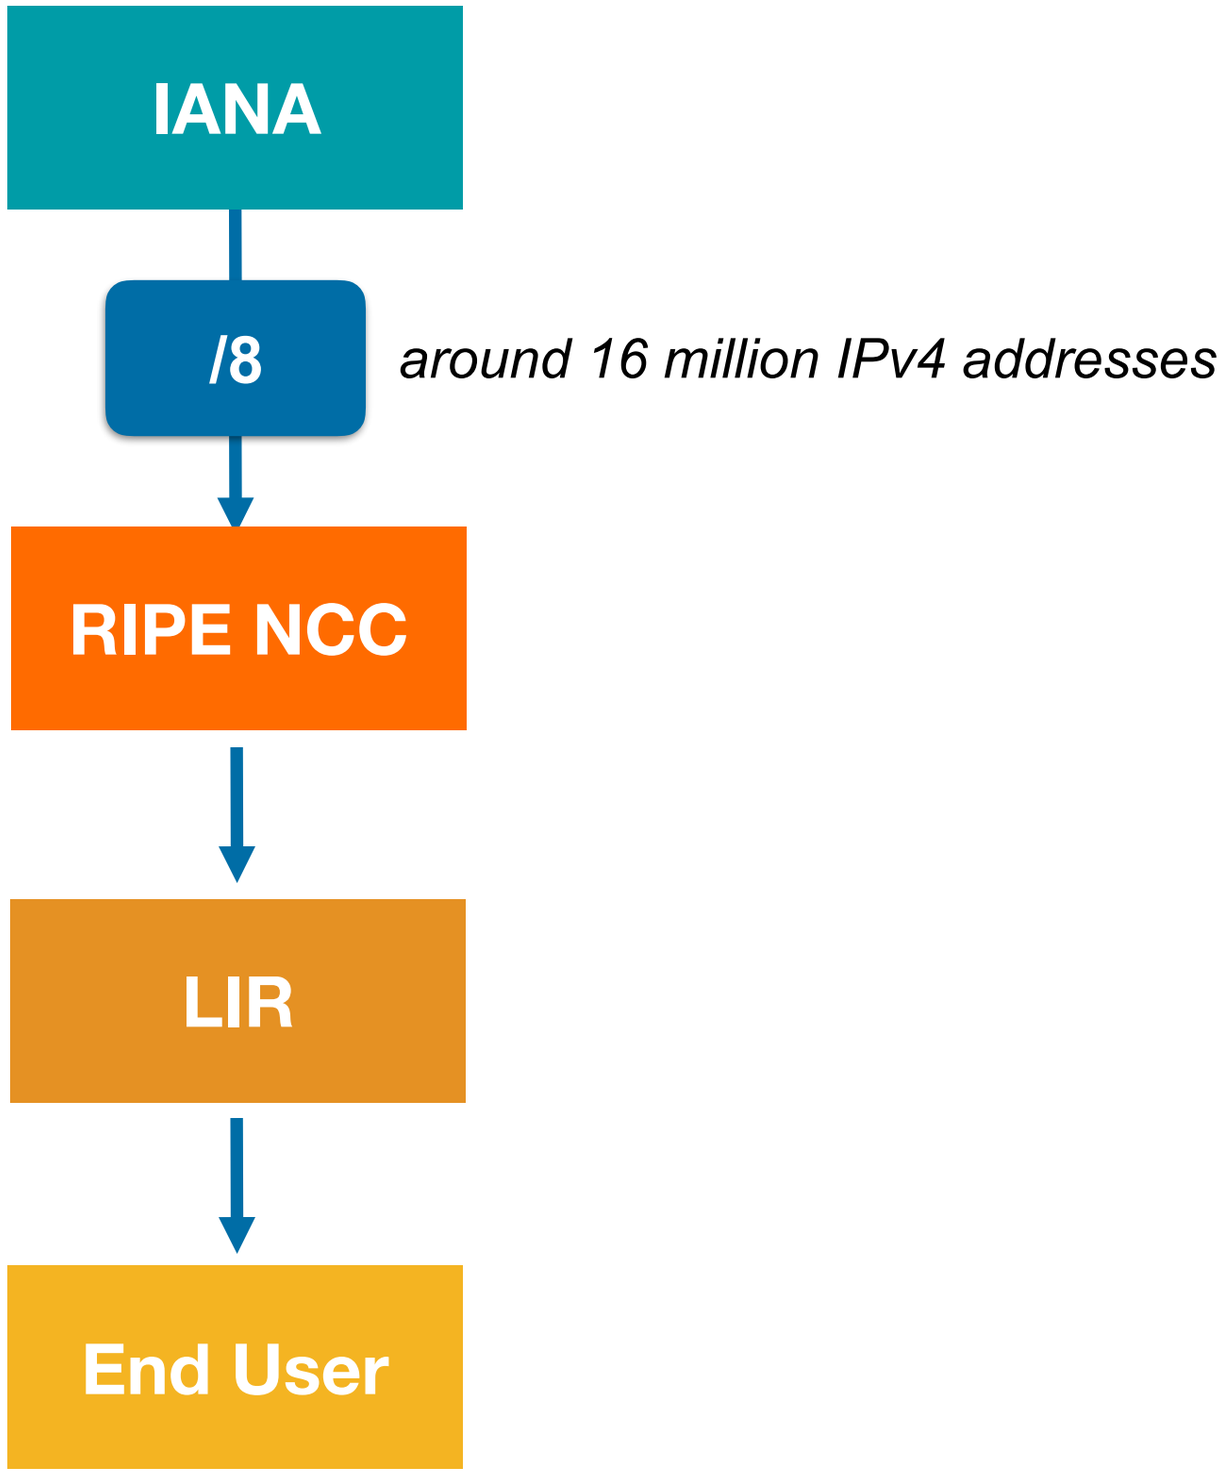


Internet Assigned Numbers Authority

Regional Internet Registry *(yes, that's us :-))*

Local Internet Registry

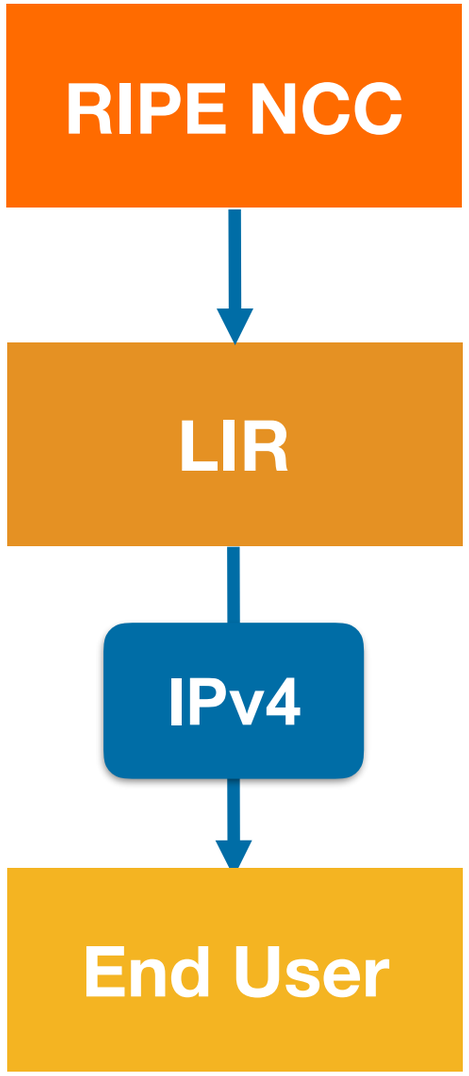
Customers



IANA
/8
around 16 million IPv4 addresses
RIPE NCC
LIR
End User

NEEDS-BASED
DISTRIBUTION

RIPE NCC
IPv4
LIR



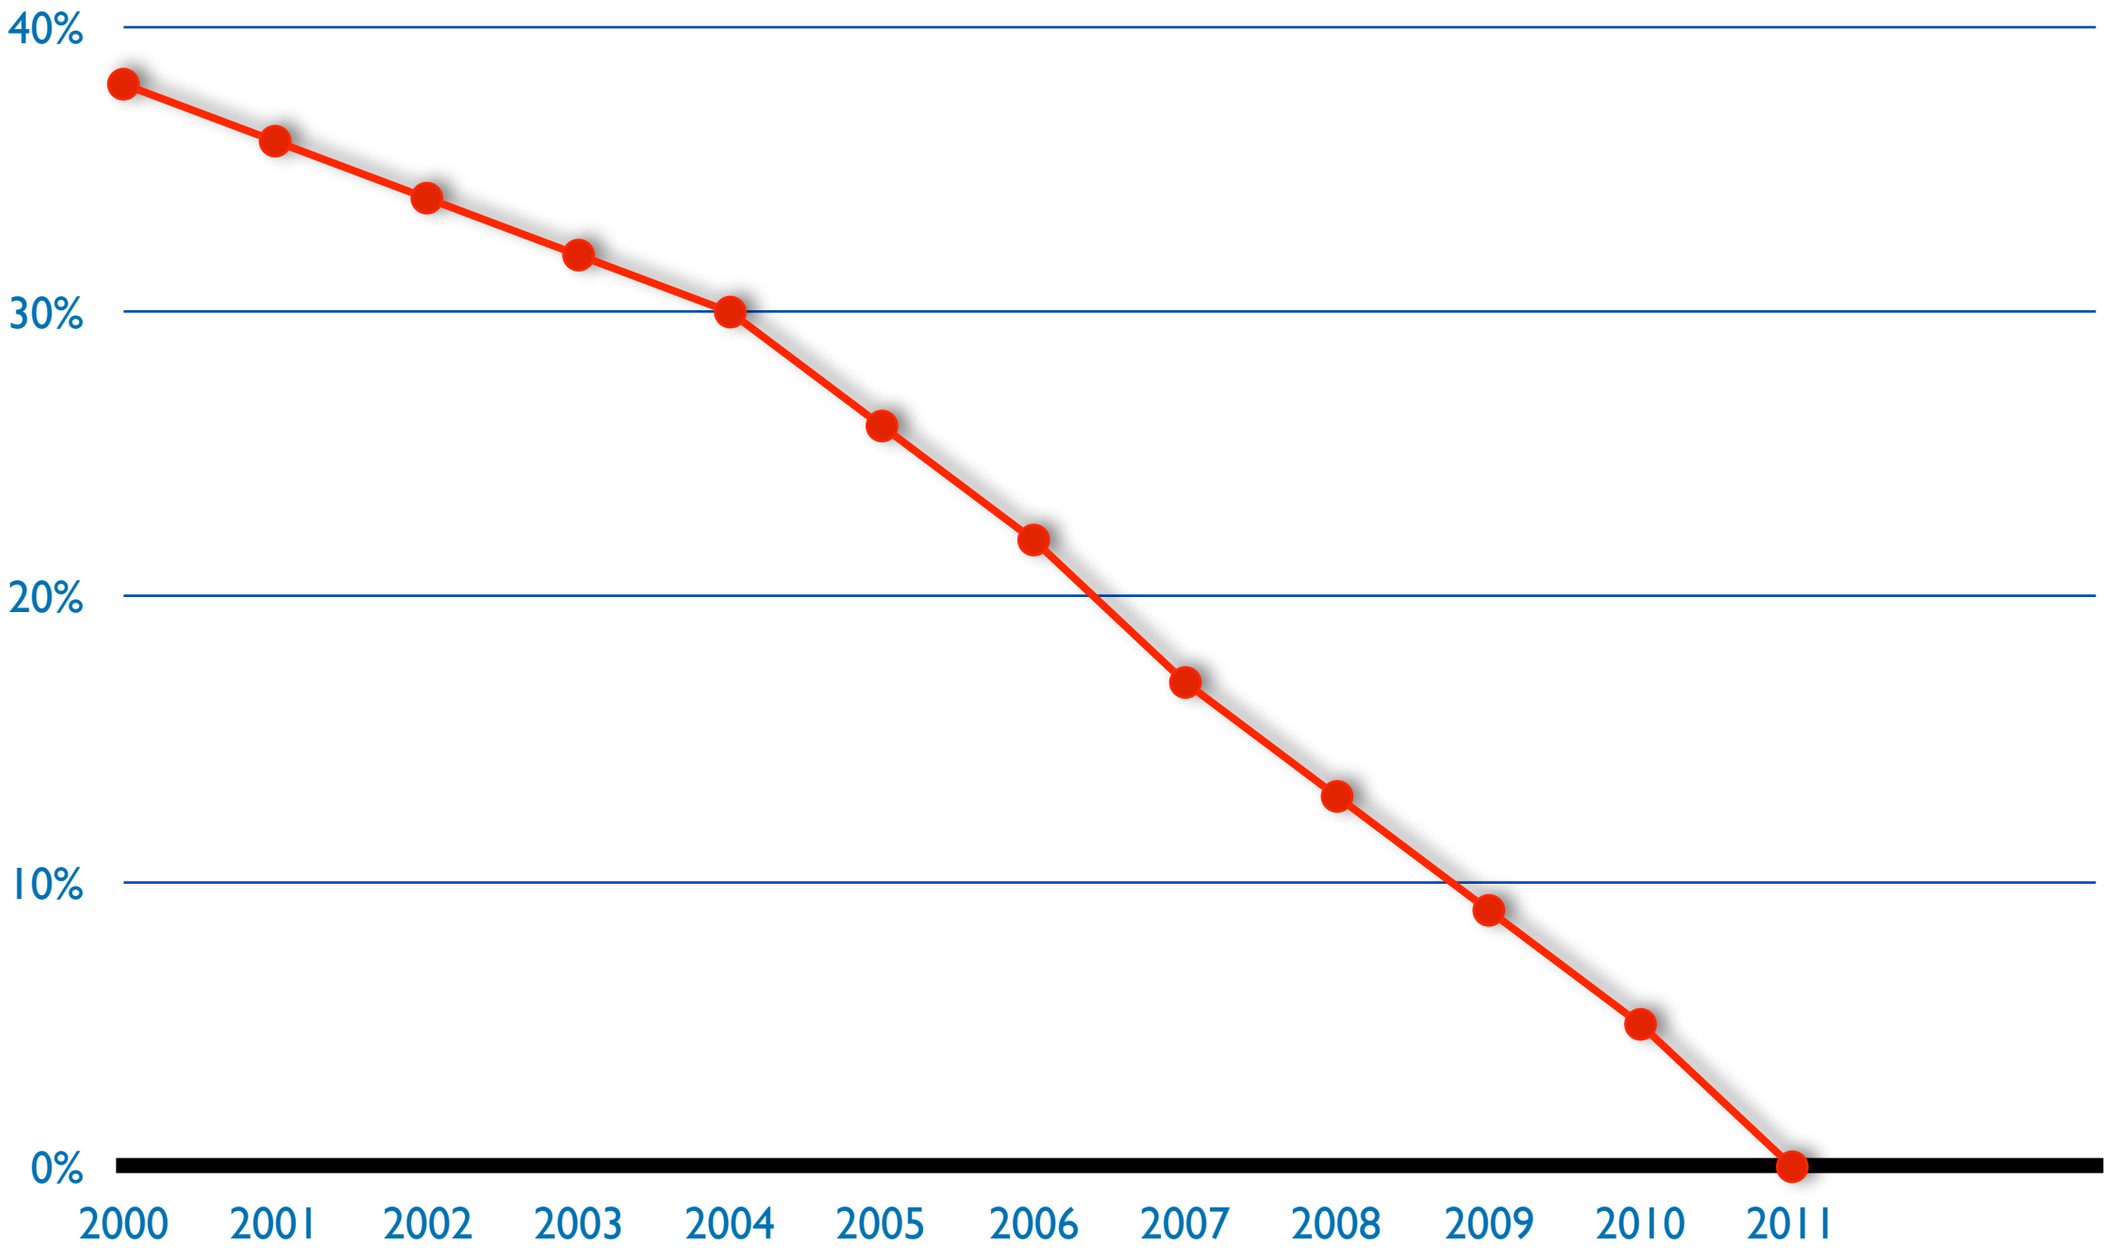
RIPE NCC
LIR
IPv4
End User

There are *only*

4,294,967,296

IPv4 addresses

IANA IPv4 Pool



SEPTEMBER
4
2012

RUN OUT

FAIRLY

ONE /22 ONLY

I'll just go and buy some…

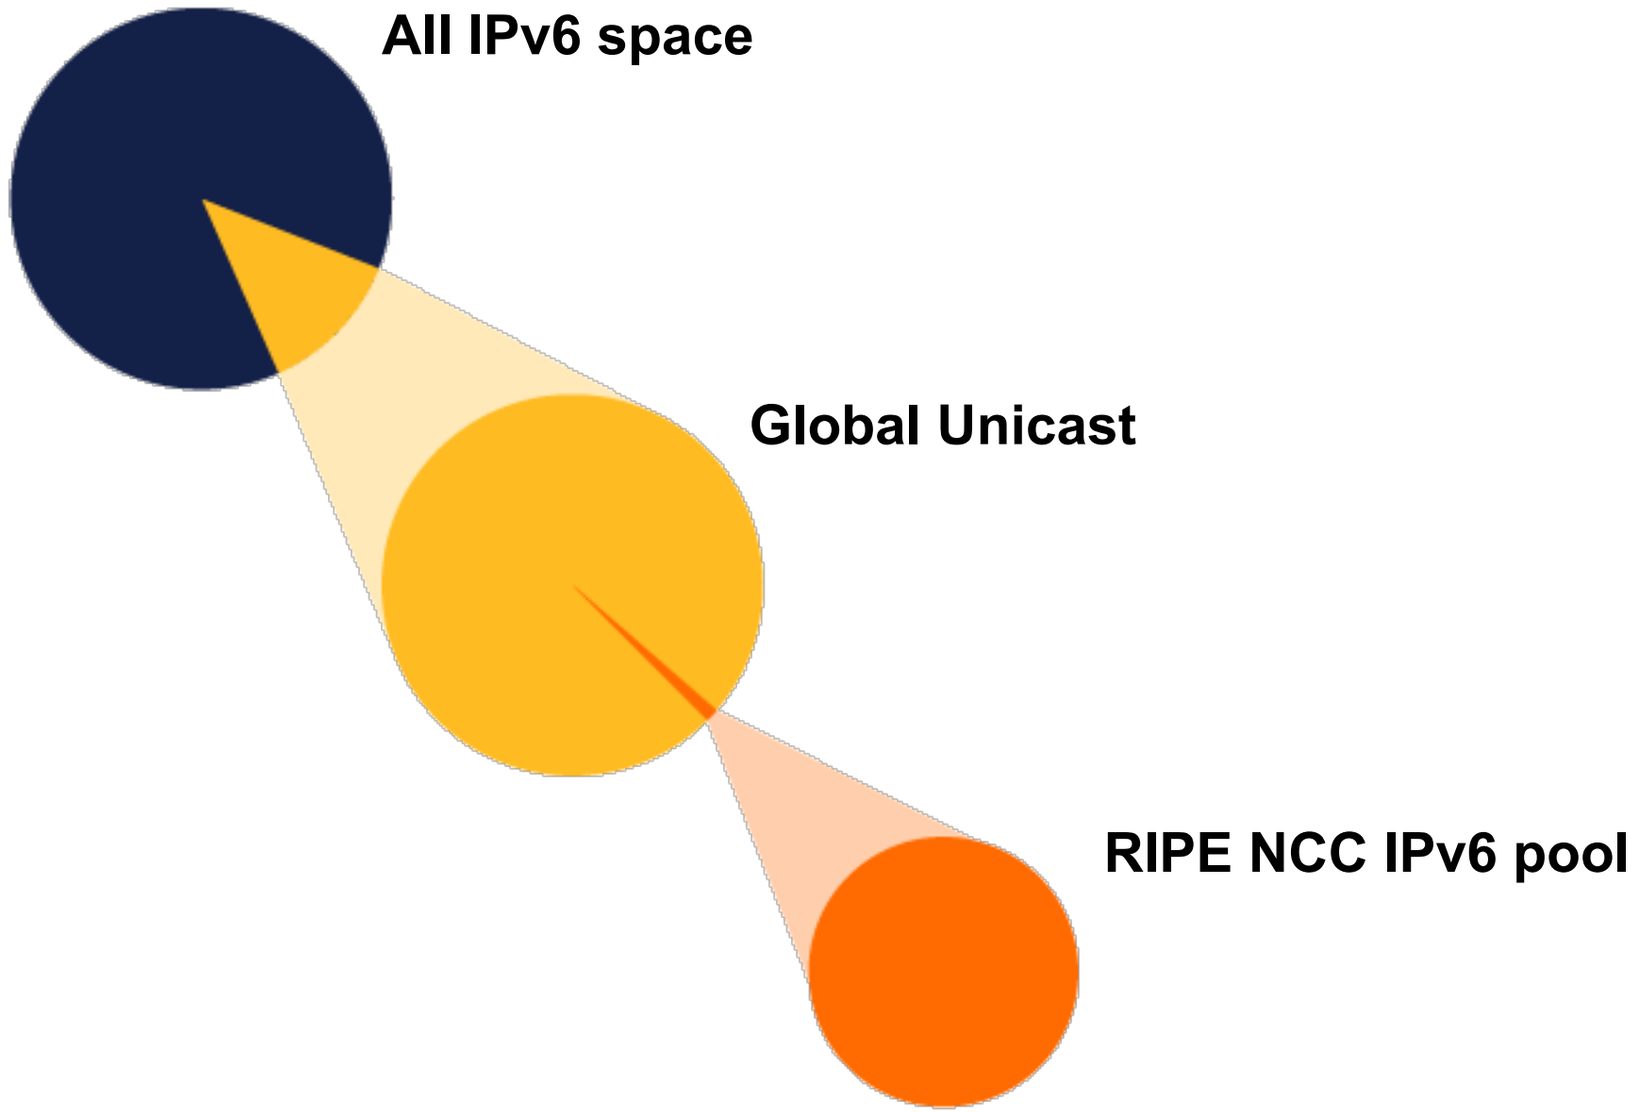
What about

IPv6 ?

There are ONLY

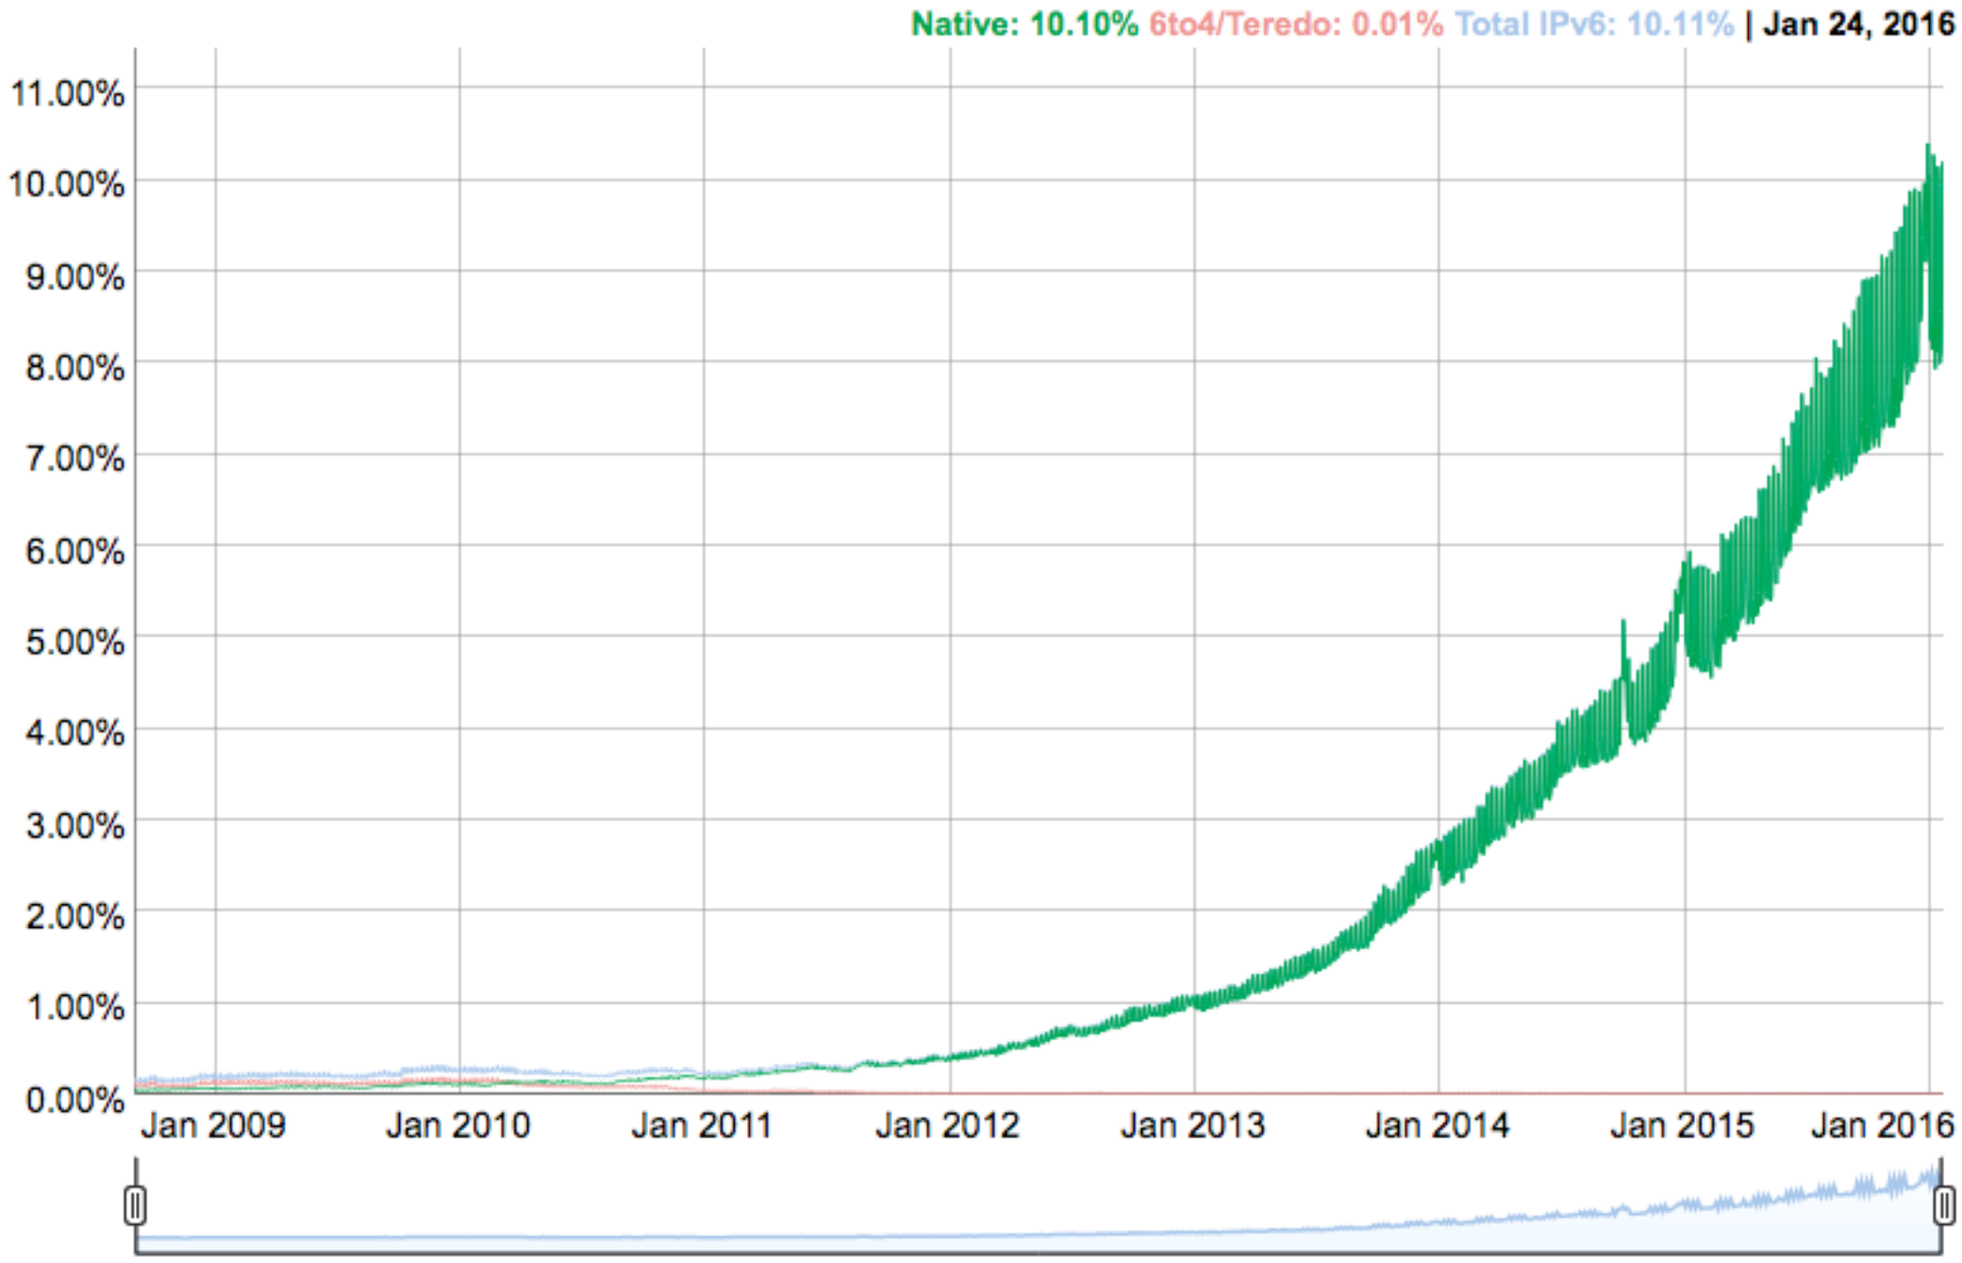
340,282,366,920,938,463,463,374,607,431,768,211,456

IPv6 addresses



All IPv6 space
Global Unicast
RIPE NCC IPv6 pool

IPv6 adoption



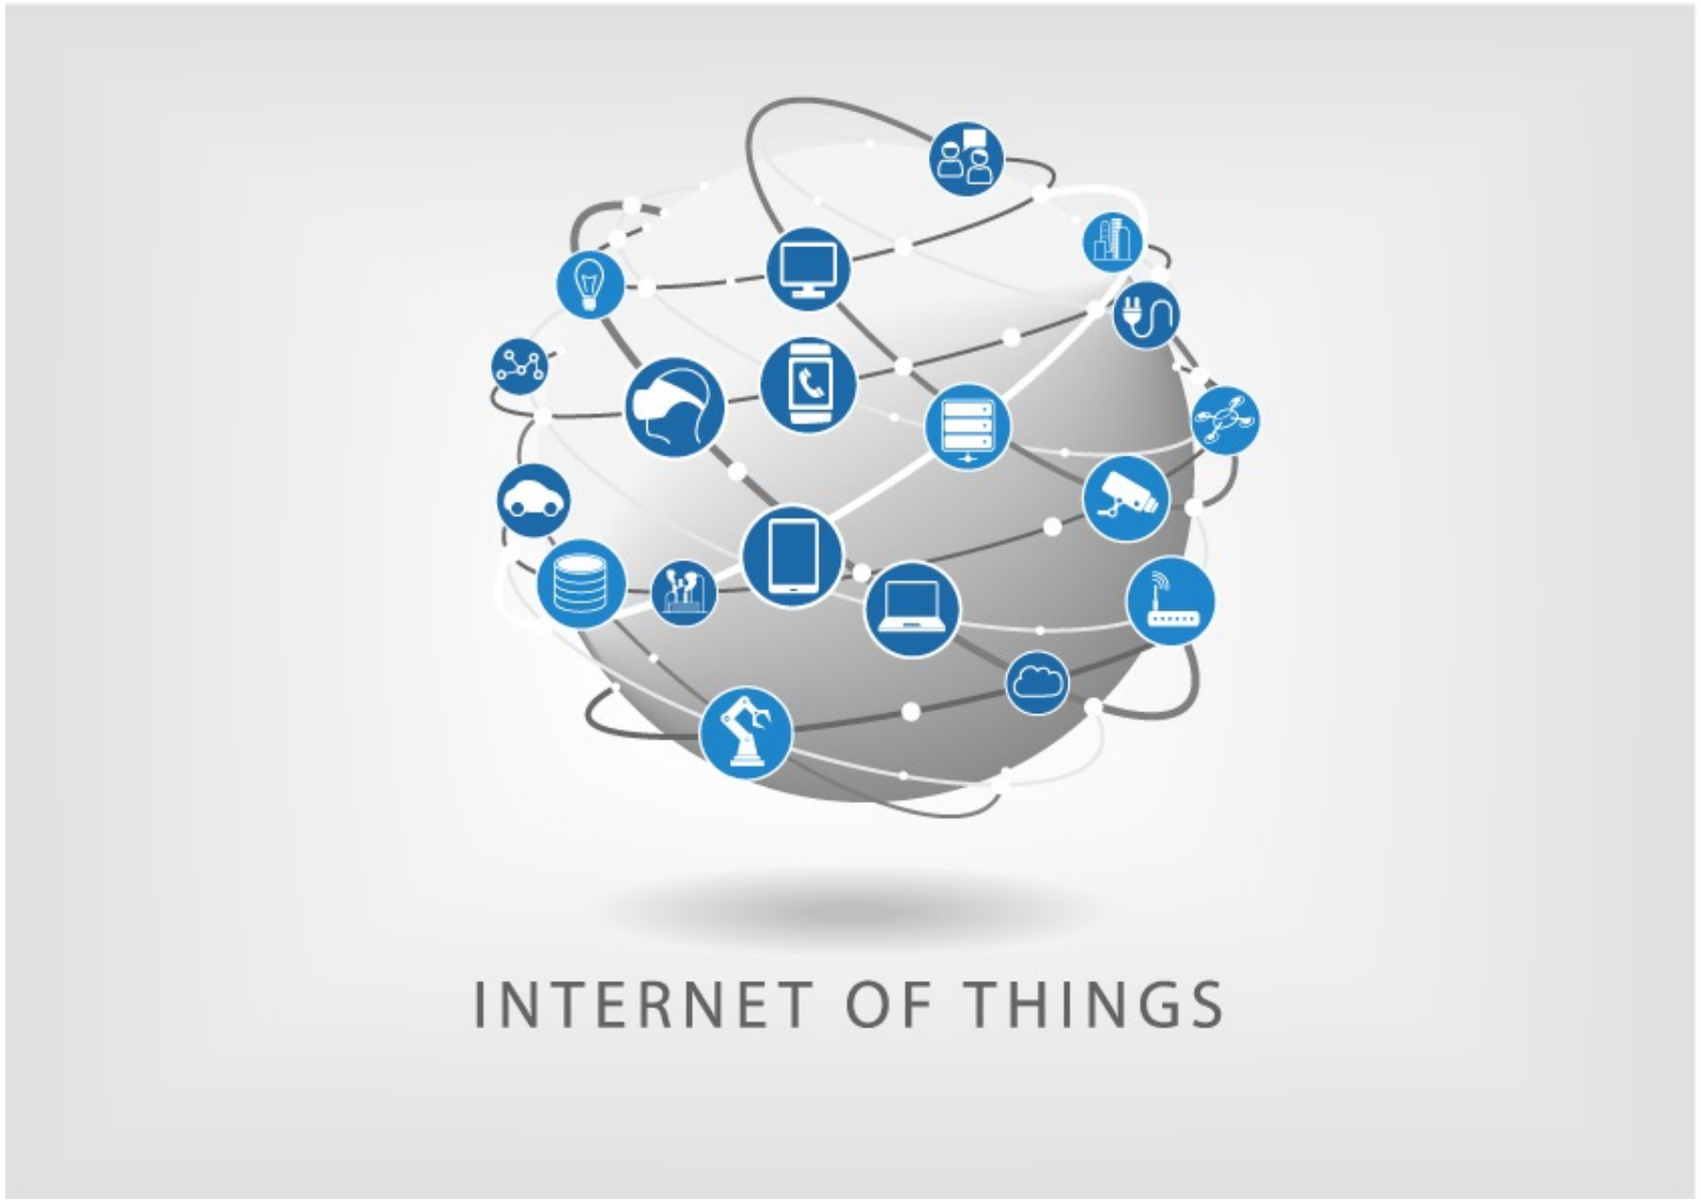
http://www.google.com/intl/en/ipv6/statistics.html

Why is

IPv6

important ?

GROWTH



INTERNET OF THINGS

Create an Addressing Plan

Go to **www.ripe.net**

Search for '***Create an Addressing Plan***'

Grab your IPv6 address space

Create a roadmap

Make an inventory

- Does your equipment support IPv6?

- **IPv6 support** must be a requirement on new purchases

- Check document
  Requirements for IPv6 in ICT Equipment
  (RIPE-554)

Get it into action!

- Set up a test lab

- Deploy external facing services first

Change mindset

- IPv6 is not a product

- Educate your staff (**everyone!**)

“Will we need IPv6?”

~~"Will we need IPv6?"~~

“What we are going to do with all these addresses?…”

Thank you
