ASN Fee	EUR 50	EUR 50	

Submission of Charging Scheme with NO CHANGE

- There is a **formal requirement** to present a charging scheme for approval at the General Meeting.
- In this case, the vote has limited impact:
 - Approval means "No Change"
 - Rejection means we keep the 2025 Charging Scheme, also meaning "No Change"
- We've held similar votes in previous years where the outcome, regardless of result, did not alter the charging scheme.

Reasoning for a 'No Change' Charging Scheme

- The 2025 Charging Scheme was intentionally designed to ensure sufficient income for 2025 and 2026, creating short-term stability.
- This short-term stability provides the Charging Scheme Task Force time to work on the principles.
- It does not burden our members with unnecessary administrative work
- Providing a different charging scheme at this point in time could be disruptive as the Task Force seeks input from the membership
