 - 8. Other areas -
- 2 sub-divisions
 - a) Core principles
 - b) Key commitments, pledges, or actions
- D. Miloshevic | April 5, 2023 | SEE 11, Split, Croatia SEE Roundtable

RIPE NCC's Key Messages (1)

- Connect all people to the Internet
 - a) Core principles:
 - alone
 - b) Key commitments:
 - RPKI protocols in its service region.
- Avoid Internet Fragmentation
 - a) Core principles:
 - b) Key commitments:
 - stakeholders. Moreover, this cooperation should not be affected by political issues

D. Miloshevic | April 5, 2023 | SEE 11, Split, Croatia SEE Roundtable

Cooperation amongst stakeholder groups is necessary in ensuring and enabling access to the Internet. It is necessary to collaborate with the private sector, since stakeholders cannot work

RIPE NCC commits to supporting the development and deployment of IPv6 addresses and

At the technical level, fragmentation refers to a lack of interoperability between networks

RIPE NCC pledges to contribute to knowledge/information sharing and coordination among

RIPE NCC's Key Messages (2)

- Digital commons as a global public good
 - a) Core principles:
 - global Internet and are beneficial to a resilient and innovative Internet ecosystem
 - b) Key commitments:
 - **Digital Public Goods**
- Other areas: Internet Governance and Participation
 - a) Core principles:
 - An inclusive bottom-up approach is fundamental for the governance of the Internet
 - b) Key commitments:
 - RIPE NCC pledges to maintain and strengthen a multistakeholder approach to Internet governance in order to allow cooperation among stakeholders

D. Miloshevic | April 5, 2023 | SEE 11, Split, Croatia SEE Roundtable

Digital Public Goods are services that play an essential role in the functioning of the open,

Governments and international institutions should support the development and deployment of

RIPE Cooperation Working Group Remote Session

Of Note

- The Global Digital Compact (via the Summit of the Future) will be finalised one year ahead of WSIS+20
 - The GDC may inform the WSIS+20 negotiations and contribute to outcomes
- WSIS laid the foundations of institutional support for a multistakeholder approach to Internet governance
 - The 20-year review of WSIS and its agreements (including the Tunis Agenda) may revisit or rescind that support
- Consultations are being conducted NOW!
 - Both online via the Office of the Tech Envoy, and in various formations being organised by the Co-Facilitators (the UN delegations of Sweden and Rwanda)
