

WSIS, WGIG, and now what?

Axel Pawlik

The Beginning

- Innocent E-Mail early 2003
- A Summit on the Information Society?
- Politicians debating the Internet?
- Oh Dear!

The Prepcoms

- Better do something
- Geneva Prepcoms during 2003
- Line up allies
 - ISOC, CENTR, IETF / IAB
 - ICC CCBI
 - Civil Society
- Try to participate & Get Kicked Out

Geneva Summit

- Declaration of Principles & Action Plan
- Big Issue: “Internet Governance”
- No Agreement
- Call for Establishment of a *Working Group on Internet Governance*

“We ask the Secretary-General of the United Nations to set up a working group on Internet governance, in an open and inclusive process that ensures a mechanism for the full and active participation of governments, the private sector and civil society from both developing and developed countries, involving relevant intergovernmental and international organizations and forums, to investigate and make proposals for action, as appropriate, on the governance of Internet by 2005.”

WGIG

- 40 Participants
- All parties present (multistakeholder...)
 - Governments (of course)
 - Civil Society
 - Business
 - Internet Community
- Many, heated, intense discussions
 - Privately & Publicly

WGIG Report

22. IP addressing

Concerns over allocation policies for IP addresses.

- For historical reasons, there is an imbalance in the distribution of IPv4 addresses.^[1] This issue has already been addressed by the regional Internet registries (RIRs). In the light of the transition to IPv6,^[2] some countries feel that allocation policies for IP addresses should ensure balanced access to resources on a geographical basis.

77. IP addressing

- Transition to IPv6 should ensure that allocation policies for IP addresses provide equitable access to resources.

22. Присвоение IP-адресов

Политика присвоения IP-адресов вызывает озабоченность.

- В силу исторических причин существует дисбаланс в распределении IP-адресов четвертой версии^[1]. Этот вопрос уже рассматривался региональными Интернет-регистратурами (РИР). С учетом перехода на IP версии 6^[2] некоторые страны считают, что политика присвоения IP-адресов должна обеспечивать сбалансированный доступ к ресурсам на географической основе.

77. Присвоение IP-адресов

- Переход на IP версии 6 должен обеспечить справедливый доступ к ресурсам через политику присвоения IP-адресов.

A New Hope?

- Maybe, but...
 - Much Work Remains...
 - Outreach, Education
 - Participation
 - WSIS Tunis Summit
 - ... and Follow-Up
-
- The Good Guys must win!
 - ... and they need Help!
