RIPE Policy Development Update

Marco Schmidt
Policy Development Officer
RIPE NCC

- The **RIPE community** develops and sets policies for the technical coordination of the Internet and the distribution of Internet number resources in the RIPE NCC's service region.
- “**RIPE community**” is the collective term for individuals and organisations, members or not, that have an interest in the way the Internet is managed, structured or governed.

Policy Development Process (PDP)

- **2015-03: “Assessment Criteria for IPv6 Initial Allocation Size”**

- Aims to remove the requirement that allocation size will be based only on existing users
- Allows consideration of additional criteria for non-ISP organisation with IPv6 plans
- Status: initial discussion phase

- **2015-02: “Keep IPv6 PI When Requesting IPv6 Allocation”**

- Removes the requirement that LIRs have to return their IPv6 PI assignment when requesting and IPv6 allocation
- Status: impact analysis gets created, then Review Phase

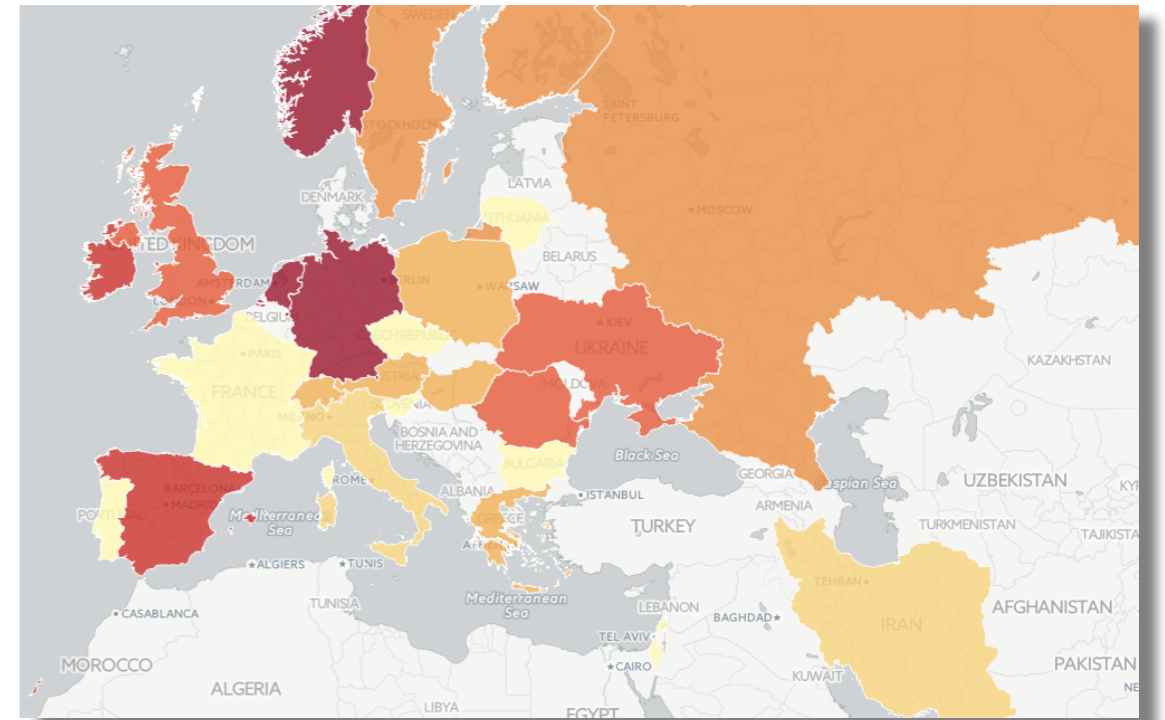

- **2014-03: “Remove Multihoming Requirement for AS Number Assignments”**
 - Aims to allow ASN assignments for any need
 - Status: authors will revise the proposal and then a new Review Phase
- **2015-01: “Alignment of Transfer Requirements for IPv4 Allocations”**
 - Aims to align the transfer requirements with a 24-month holding period for all IPv4 allocations
 - Status: Review Phase

- **2014-12: “Allow IPv6 Transfers”**
- **2014-13: “Allow AS Number Transfers”**
 - Now all Internet resources can be transferred within RIPE NCC service region
 - Includes IPv4 PA, IPv4 PI, IPv6 PA, IPv6 PI and ASN
 - Implementation expected about July 2015
- **2014-05: “Policy for Inter-RIR Transfers of Internet Resources”**
 - Allows transfers of resources with other regions with compatible transfer policies (currently ARIN and APNIC)
 - Implementation expected about August 2015

- Participation on Address Policy mailing list in 2014
