Statistics: SEE Region

RIPE NCC events in South East Europe

- Internet Measurement Day Serbia 13 September 2022 co-hosted by SOX
- 75 attendees shared experiences on measurement tools:RIPE Atlas, ITHI Metrics, Routing Information System (RIS), RPKI and the RIPEstat
- Update on Serbian DNS recursive traffic behaviours by Quad9 and Shadowserver's breakdown of malware infection types as seen in Serbian networks
- CAIDA's source address validation measurement project (The Spoofer Project) shared their last year's country stats for Serbia and has offered to put RSNOG mailing list to their extensive list of NOGs that get free monthly reports
- https://www.ripe.net/participate/meetings/internet-measurement-day/internet-measurement-day-serbia

RIPE 85

- Hybrid event co-hosted by RNIDS and SOX 24-28 October in Belgrade
- 1,000 attendees 202 newcomers
- Mix of great discussions, great weather and a solar eclipse
- All presentations are available at: https://ripe85.ripe.net/presentations/presentation-archive/
- Reviewing best practices of the past, enhancing current solutions and contemplating the Internet of the future

RIPE 85

- Slobodan Markovic: “Remembering Internet revolution in Serbia during student protests 1996/1997"
- Tobias Fiebig: “13 propositions on an Internet for a Burning world” flagging the urgency for the Internet to take better care for people, planet and infrastructure
- HRNOG foundation https://nog.hr/hr-nog-meetup-1/ NOG.HR Meet Up 1, Zagreb 10 November
- Quantum Internet sessions on its technologies, research and activities
- 1-2 December Quantum Internet Hackathon onsite and online
- Apply at: https://www.ripe.net/participate/forms/apply/quantum-internet-hackathon-2022

Member Services/ IP Address Management for LIRs

Accuracy of the Registry remains a high priority of our Mission and Vision post IPv4 Run-Out world

Joint effort between the RIPE NCC and the resource holders (LIRs and End Users)

Valid registry protects resource holders from potential misappropriation

Applying due diligence checks in increased IPv4 transfers, mergers/acquisitions and attempts at hijacking resources

Keep your registry info up-to-date

Use your RIPE NCC Access account to manage your details via LIR portal

https://access.ripe.net/registration

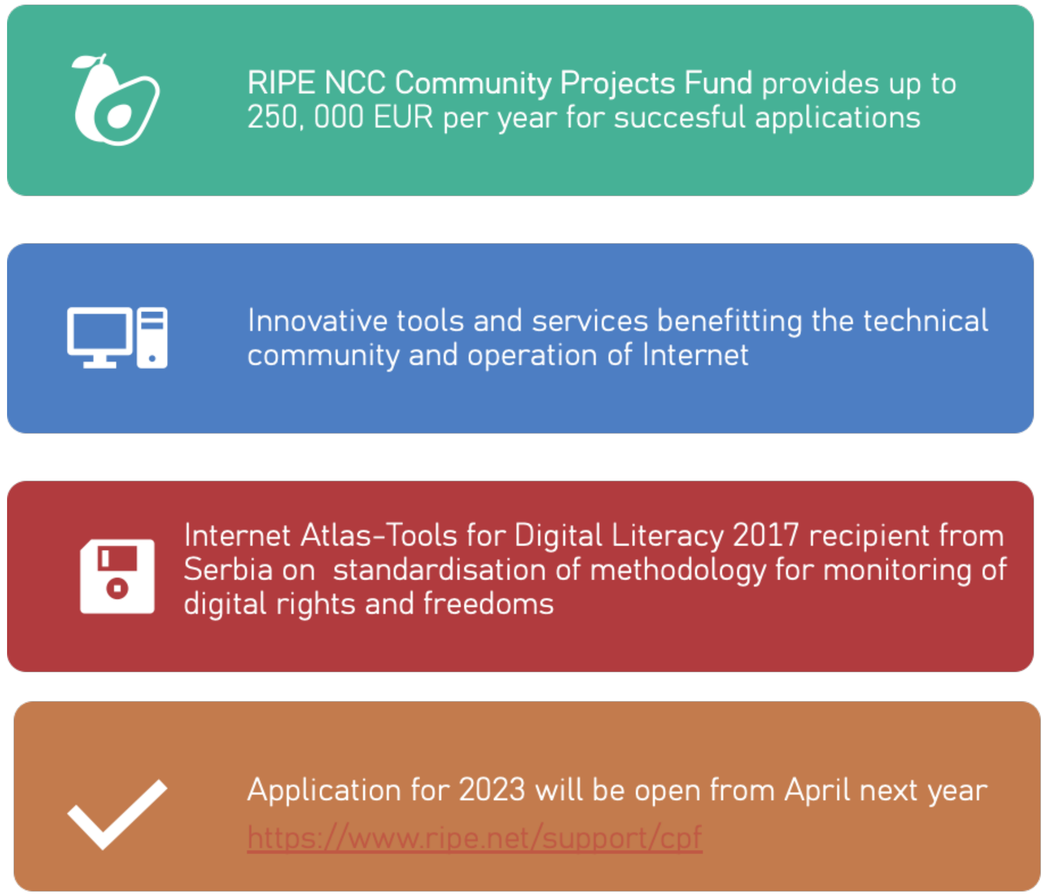
Make sure only relevant people have access to admin, regular, billing privileges

Regularly update your contacts (in case of colleagues leaving)

Open a ticket with us in case of changes of legal name and/or address, transfers or mergers

Funding and Networking Opportunities

- RIPE NCC Community Projects Fund



RIPE/SEE Fellowship Programme

- For the ones working or studying in Internet technology
- Provides ticket to participate in a RIPE meeting, travel and accommodation
- Discuss policies, network with peers and further share gained knowledge
- https://www.ripe.net/participate/ripe/ripe-fellowship

Join us at the next SEE meeting!

- SEE 11 will take place in Croatia 3-4 April 2023:
- https://www.ripe.net/participate/meetings/regional-meetings/see
