9. If not chosen for the preferred time period, would you still be interested?

		Response Percent	Response Count
Yes		100.0%	24
No		0.0%	0
	Other (please specify)		1
answered question			24
skipped question			4

10. Multi-service or one-service box? (are you interested in Atlas Anchors only if it will become a RIPE NCC multi-service box, or would also you be satisfied if the box turns out to be only Atlas Anchor?)

		Response Percent	Response Count
I am only interested in "RIPE NCC" box, with Atlas Anchor being one of the services		32.1%	9
I am interested in Atlas Anchors, but would also like to have other services on the same box		57.1%	16
I am only interested in Atlas Anchors		14.3%	4
I am only interested in Atlas Anchors, and would not want to install any other service on the same box		17.9%	5
	Other (please specify)		7

12. Will you be able to provide Remote Hands support? (We will require some (limited) hands on support at install time. The expectation is that the number of support requests after the initial install will be minimal.)

		Response Percent	Response Count
Yes		28.6%	8
Yes, max within 4 hrs (office hours)		17.9%	5
Yes, max within 1 business day		14.3%	4
Yes, but without any guaranteed response time		39.3%	11
No		0.0%	0
	Other (please specify)		3

13. Which version of the HW specifications do you prefer: (general specs: on the list: <https://www.ripe.net/ripe/mail/archives/atlas-anchors-pilot/2012-September/000000.html>) Differences: Version A: 3.5" disks, 3 years service contract, price 3,200.00 Euro Version B: 2.5" disks, 4 years service contract, price 3,550.00 Euro

		Response Percent	Response Count
Version A		14.8%	4
Version B		22.2%	6
I can live with any of the two choices		70.4%	19
	Any comment?		6
answered question			27
skipped question			1

14. How many switch ports can you provide for the Atlas Anchor? (At a minimum we require 2 ports - service and management (preferably on a separate subnet and separate switch). Additionally, since the device comes with a dual port GE port, a total of 3 Ethernet connections can be used (see also next questions).)

		Response Percent	Response Count
2 ports		25.9%	7
3 ports		74.1%	20
	Other (please specify)		6
answered question			27
skipped question			1

15. Do you support Link-Aggregation / Port channel / Link bonding on the service connection?

		Response Percent	Response Count
Yes		66.7%	18
No		25.9%	7
Not Applicable		7.4%	2
	Other (please specify)		5
answered question			27
skipped question			1

16. How many IPv4 addresses can you make available for use on the Atlas Anchor? (The Atlas Anchor will require 2 IPv4 addresses, one for management access, one for services use. If/when additional services will be added in a later phase, we might require an additional IP address for some of the services.)

		Response Percent	Response Count
2 IPv4 addresses		11.1%	3
more than 4 IPv4 addresses		92.6%	25
	Other (please specify)		5
answered question			27
skipped question			1

17. Can you connect the management port via a separate switch?

		Response Percent	Response Count
Yes		74.1%	20
No		25.9%	7
	Other (please specify)		3
answered question			27
skipped question			1

18. Can you provide IPv6 support on the ports available for the Atlas Anchor? (both console and service port)

		Response Percent	Response Count
Yes		100.0%	27
No		0.0%	0

Additional comments about IPv6? 2

skipped question 1

19. Are you willing to provide feedback about your experiences with the Atlas Anchors pilot?

		Response Percent	Response Count
Yes		81.5%	22
Yes, and I will respond to the mailing list within the same day of any question posted		40.7%	11
Yes, and I will write a RIPE Labs article about my experiences		14.8%	4
Yes, and I will also add an essay of 100 words in the "essay" text-box		3.7%	1
No		0.0%	0

Essay (please specify how will you provide additional feedback) 4
