

Australian ENUM Day Seminar - Don't Miss it!

Wednesday the 15th November 2006
Menzies Hotel, Sydney

The Australian Communications and Media Authority (ACMA) and participating members of the Australian ENUM Trial, AusRegistry, AARNet and Instra Corporation, invite you to a FREE seminar in November to learn how ENUM will be used to receive telephone calls, VoIP calls, email, instant messages, and much more in next generation networks (NGN).

The ENUM Day seminar will be held at the [Menzies Hotel](#), Sydney on Wednesday the 15th of November 2006.

For more information about the seminar:

- See the ENUM Day website: www.enumday.com.au
- See draft [program](#)
- Register [online](#)
- Email maggie@enum.com.au
- contact Maggie Whitnall on +61 3 9866 3710

ENUM is the mapping of telephone numbers to domain names using Domain Name System (DNS) based architecture, in order to help facilitate such services as Voice over IP (VoIP). It allows network elements to find services on the Internet using only a telephone number. ENUM will be an enabler for the convergence of Public Switched Telephone Networks (PSTN) and Internet Protocol (IP) Networks. For more information please visit the [ENUM](#) website.
