Update DE-CIX

Bernhard Krönung

 DE-CIX

Agenda

- ◆ recent developments
- ◆ technical meeting
- ◆ statistics

recent developments

◆ Partner-Programm ...

- DE-CIX is now offering partner-programs for interested carriers, backbone-providers, housing-facilities and partners in the ISP-community
- ISP connected via Partners pay the same rates and have to be members - and comply to the same standards - like all members
- Starting Q2/2005

◆ First Partners

- Fibernet had a special Offer for Dark-Fiber to the DE-CIX
- First international Partner is Datacenter Luxembourg

recent developments

- ◆ **second technical meeting (April 15th)**
 - About 70 People attendet (about 30 I SPs + Parters)
 - Presentation of „Fingerprint Sharing“ to track down traffic-anomalies and help I SPs to cooperate. (Arbor Networks)
 - Communitiy based projects : OpenBGPd, WLSec / Wireless Security Framework
 - BGP / I GP Fast Convergence (Cisco)
 - VoIP-Implementation Example (Toplink)
 - E-Mail Policy Exchange (Bizanga Ltd)
 - And ... Beer&Bratwurst

Statistics

◆ Members (constantly growing)

- 2003/12/31: 126
- 2004/09/17: 134
- 2005/05/04 : 144
 - First 10Gbit-Cusomers in February 2005
 - Lot of Upgrades to Gigabit-Etherchannel

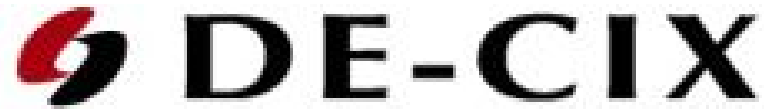

◆ Traffic – public Peering (also growing)

- 2003/12/31: about 16 Gbps
- 2004/09/21: about 23 Gbps
- 2005/05/04: about 32 Gbps

... A lot of I SPs using Privat Interconnects

... While others using Gbit-Etherchannels and 10Gbit-Links

Thanx

Finished

But one graph for those who waited for it :
